Dynamite Found in Home Of Late Minuteman Aide

NYT - 6/20/73

BRENTWOOD, Md., June 19 (UPI)—Federal Bureau of Investigation agents found 50 pounds of dynamite last night in the home of Jesse Stephens, an extremist right-wing leader who died last week.

The widow of Mr. Stephens, an official of the Minuteman organization, called the F.B.I. to ask agents to search the house for her own safety and that of the neighborhood, Fire Prevention Chief M. H. Estepp said.

When the dynamite was found, residents of the block around the Stephens house in this Washington suburb were evacuated for several hours.
